Wins / Challenges and things of note

- lots of motion, little progress
- A bit of executive disfunction
- Getting stuck in between intent and outcome
- Glad that my intent is much more organized / concrete now. Redmine helped sharpen my focus.
- Struggling to move forward on tickets and close them out
- Excited about ChatGPT as a major velocity
- Feeling good overall, but somewhat... dissappointed (maybe a tiny bit depressed?) about lack of measurable/demonstrable progress. I am laying lots of groundwork, coiling the spring, final bits of the potential energy store as penultimate steps before going kinetic. Onward and forward I go.

Food / Fitness / Health Log

- Diet was 100% compliant

- Went to the gym
