Today's objectives

Finish getting all files organized. (Did pretty good, about 80% complete with the offstage account. And everything is landed into streaming account that should be).

General mood/progress/thoughts log

0600 Up and running

0800 Breakfast consumed. Did a bunch more email/file/photo/todo organizing. Also kicked off updates to various apps in Cloudfone.

1616 loaded almost all material into Joplin / Immich / Dolibar ERP instances. Few more hours to finish it all up. After that, I'll be getting all my todos loaded into Redmine. Did some de duplication of todos and removed quite a few completed ones as part of file cleanup / import.

Quite a few recruiters emailed today and I responded promptly.

2200 Much file processing. Joplin/Dolibar have a bunch of new content from my filesystem. Trying to figure out why paperless is only working for the admin user. That's the last big blocker (for the offstage account) to get everything off the filesystem and into the appropriate long term system of record.
